EMPLOYMENT

PROFESSIONAL SUMMARY

Laravel Developer with 4 months of professional experience in PHP & Laravel development and 3 months of internship experience in .NET development. Skilled in building RESTful APIs and web applications using PHP (7.4/8.x) and Laravel (8/9). Strong understanding of OOP, MVC architecture, and database optimization. Passionate about writing clean, scalable, and secure code.

TECHNICAL SKILLS

Backend Development

- PHP (7.4/8.x)
- Laravel (8/9)
- RESTful API Development
- MVC Architecture
- Authentication & Authorization (Sanctum)
- ASP.NET Core (Basic)
- C# (Basic)

Database

- MySQL (Schema Design, Indexing, Query Optimization)
- PostgreSQL
- SQL Server
- MongoDB

Frontend

- HTML5, CSS3, Bootstrap, Tailwind CSS
- JavaScript, jQuery
- React.js (Basic Knowledge)

Tools & Others

- Git & GitHub
- Composer
- Artisan CLI
- Linux & Windows
- REST API Integration

PROFESSIONAL EXPERIENCE

PHP Developer (Current) Saman Technosys Pvt. Ltd. August 2025 – Present

- Developing and maintaining web applications using PHP and Laravel.

- Building and integrating RESTful APIs.
- Working on backend logic, authentication systems, and database optimization.
- Handling bug fixing, performance improvements, and feature enhancements.
- Collaborating with frontend developers for seamless API integration.
- Writing clean, scalable, and maintainable code.

Laravel Developer (4 Months) SME Consulting Services January 2025 – April 2025

- Developed and maintained web applications using Laravel and PHP.
- Built RESTful APIs for frontend-backend communication.
- Implemented authentication & authorization using Laravel features.
- Optimized MySQL database schemas and queries.
- Improved application performance and resolved technical issues.

.NET Developer Intern (3 Months Internship) ISA ERP Solutions Pvt. Ltd. July 2024 – September 2024

- Developed ASP.NET Core applications using C#.
- Designed and optimized SQL Server databases.
- Worked on ERP system enhancements and debugging tasks.

PROJECT EXPERIENCE

Patient Management System (Laravel)

- Developed CRUD operations with role-based access control.
- Designed normalized relational database schema.
- Implemented pagination, input validation, and API integration.
- Improved query efficiency through indexing and optimization.

Hotel Management System (Django)

- Developed backend booking management system.
- Designed relational database structure.
- Implemented business logic using Django framework.

EDUCATION

Bhopal, India Ravindranath Tagore University 20 – July - 2023

- Bachelor of Computer Applications (BCA)
- Focused on Software Development, Database Management, Data Structures, and Web Technologies.
- Studied programming languages including PHP, JavaScript, Python, and C#.
- Developed academic projects including a Patient Management System (Laravel) and Hotel Management System (Django).
- Gained practical experience in Database Management (MySQL, SQL Server, MongoDB) and Version Control (Git/GitHub).
- CGPA: 7.8 / 10

TRAINING & CERTIFICATIONS

- Full-Stack Web Development Course (Udemy)

PERSONAL DETAILS

- Languages: English, Hindi, Maithili

- Strong understanding of OOP, MVC Architecture, and Backend Development
- Passionate about scalable system design and performance optimization
